I had read his articles about biblical stories and scientific research and commonsense called Miracle.I liked many points from that. But I didn't know him personally. He came in contact through Dr Lorence Collins in March' 24.I regret, how nice it would have been if I could have say this to him earlier.His work is not in vain. Especially after the volcano eruption of Hayli Gubbi his articles becomes very important.We thank God for his life!Heartiest Condolences!
